SERVICE BULLETIN DSPbR-013

Product: DSPbR Rebroadcast Repeater

Subject: Firmware 5.2.4 Release   **Date: 27th January 2015**

Description

This Service Bulletin announces the release of baseline 5.2.4 firmware for the DSPbR Rebroadcast Repeater (DSPbR) series products.

Product Enhancements

The version 5.2.4 firmware addresses the following product issue;

i)   When operating in a multi-rack configuration, the Master DSPbR chassis can produce spurious alarms from the Slave chassis.

Upgrading to Firmware 5.2.4

Note: Please read all Service Bulletins published from the release of the firmware currently operating in your DSPbR prior to commencing an upgrade to this version 5.2.4 firmware. Upgrades may require a transition through an intermediate firmware version on the way to reaching this version - or may have other implications for your DSPbR.

Cost Impact

Firmware version 5.2.4 is available to RFI customers at no charge.
